

## MARINE ACOUSTICS, INC.

Marine Acoustics, Inc. (MAI) is a specialty engineering consulting firm, supporting customers in naval research, development, test and evaluation, language translation technologies, and environmental and ocean science since 1988. We address and perform at-sea testing and deployment of new technologies, including environmental considerations, for NAVSEA, SPAWAR, and the Office of Naval Research. We specialize in undersea warfare and maritime surveillance systems.
